PROJECTS

Chatpod (Github)
- A real-time chat application using **Node.js** and **Socket.io**.
- Used Socket.io to manage real-time web socket connection to a Node.js server for real time updates.
- Multiple clients can also join a server and communicate in the same way as a group chat..
- **Tech Stack:** HTML, CSS, Javascript ,Node.js, Socket.io.

Weather App (GitHub)
- This App can show weather conditions of any location on Earth using **OpenWeather API.**
- User can search for weather condition of any city by searching the city name.
- It can also access the device's current location using a **geolocation** function and shows the weather condition of that location.
- Deployed on github pages.(WeatherApp)
- **Tech Stack:** OpenWeather API , Javascript , JSON ,HTML,CSS.

2048 Game Clone (GitHub)
- Clone of famous game 2048 in which user have to join the same numbers and get to the 2048 tile
- Built using Javascript DOM the objective of the game is to slide numbered tiles using arrows keys on a grid to combine them to create a tile with the number 2048 .
- Deployed on github pages.(2048).
- **Tech Stack:** HTML, CSS, javascript.

Movie_Plus (GitHub)
- Movie_Plus app searches for movies for user entered input.
- This app uses **OMDB API** to obtain movie information like movie banner and release year..
- Deployed on github pages.(Movie_Plus)
- **Tech Stack:** OMDB API, React.js ,HTML,CSS.

CERTIFICATIONS

- Introduction to Front-End Development by META staff through Coursera.(Certificate)
- CSS And JavaScript Complete Course offered by UDEMY.(Certificate)
- Problem Solving (Intermediate) certified by HackerRank.(Certificate)

SKILLS

- C/C++ | Data Structures and Algorithm
- HTML | CSS | Javascript | Node.js | React.js
- Git and GitHub | Canva | Microsoft Office

CODING PROFILE

Solved more than 700+ questions on various coding platforms.
- LeetCode (profile)
- GeeksforGeeks (profile)
- Hackerrank (profile)
